City: Chessy	State/Province: Unknown	City: Santa Clara	State/Province: CA
Zip: 77700	URL:	Zip: 95054	URL:

Scan Status

Compliance Status:	Fail <input type="checkbox"/>	Pass <input checked="" type="checkbox"/>
Number of unique components scanned:	1	
Number of identified failing vulnerabilities:	0	
Number of components found by ASV but not scanned because scan customer confirmed components were out of scope:	2	
User selected PCI Out-of-Scope	0	
Domains discovered by DNS discovery	2	
Domains based on redirects	0	
Parent and subdomains	0	
Deleted domains	0	
Date Scan Completed:	01-DEC-2013	
Scan expiration date (90 days from date scan completed):	01-MAR-2014	

Scan Customer Attestation

Emaging Computer France attests on 02-JAN-2014 00:08 that this scan includes all components which should be in scope for PCI DSS, any component considered out-of-scope for this scan is properly segmented from my cardholder data environment, and any evidence submitted to the ASV to resolve scan exceptions is accurate and complete.

Emaging Computer France also acknowledges the following: 1) proper scoping of this external scan is my responsibility, and 2) this scan result only indicates whether or not my scanned systems are compliant with the external vulnerability scan requirement of PCI DSS; this scan result does not represent my overall compliance status with PCI DSS or provide any indication of compliance with other PCI DSS requirements.

ASV Attestation

This scan and report was prepared and conducted by McAfee under certificate number 3709-01-07, according to internal processes that meet PCI DSS requirement 11.2 and the PCI DSS ASV Program Guide.

McAfee attests that the PCI DSS scan process was followed, including a manual or automated Quality Assurance process with customer boarding and scoping practices, review of results for anomalies, and review and correction of 1) disputed or incomplete results, 2) false positives, and 3) active scan interference. This report and any exceptions were reviewed by McAfee Support Team.
